BLUESTONE DESIGN PROJECT

COLORED BODY PORCELAIN PAVERS - Rectified Monocaliber

REDEFINE TRADITIONS.

Bluestone Design Project is a premium line inspired by the finest **Pennsylvania native bluestone**, widely used for prestigious projects all over North America.

A highly versatile outdoor collection with infinite combinations of colors, sizes, veneers, trim pieces and finishes, designed to meet the demands of Total Look outdoor project.

HIGH-TIER FINISH.

The Bluestone Design Project comes with the most refined and prestigious finishes available with the Pennsylvania stone.

Thermal: the result of a high-grade flaming process, grants the tile its refined, rough textured surface.

Natural (Cleft): the traditional, natural split stone finish, highlights the stone's uniquely layered structure.

Tumbled: a prestigious finish that lends the surface its distinctive antiqued look, cherished for its rugged yet elegant nature.

COLORS AND DESIGN.

The Bluestone Design Project explores the most exceptional and defining traits of the Pennsylvania native bluestone, such as the Blue Select color, known for its uniform and intense gray-blue shade, or the Full Color alternative, where polychromies and dynamic design meet to create an array of combinations.

Bluestone Design Project also revisits the prestigious Tumbled design, breathing new life into a **historical pattern** and the Cobblestone variant, enriched by infinite multicolored nuances.

As far as Porcelain Pavers, Bluestone Design Project offers an ample choice of customizable solutions, with options ranging from the standard 24"x24" size to 12"x24", 24"x36", 24"x48", and 12"x12". The antiqued Tumbled finish is available in the 9"x9" and 9"x18" versions, while the Cobblestone model comes in the traditional Cube pattern or in the unique Multisize variant.

FLOOR AND WALL

Bluestone Design Project presents an ample choice of boundless combinations not only for floor but also for wall application, thanks to the prestigious and decorative Porcelain Veneer range, available in two different versions: a refined and modern **Pro Ledgestone** and a more traditional Quarry Ledgestone.

A remarkable project with infinite combinations for your Bluestone Total Look Project.
